To Whom It May Concern

I am writing to you in regards the Drayton South Mine. I feel as someone in the horse industry that this will be detrimental to future and current investment in the surrounding area. Coolmore and Darley have invested an incredible amount into this area and they are long term prospects where as the mines are not. It is a worrying time for many in the thoroughbred industry as if we see Coolmore and Darley relocate this could have detrimental effects for many breeders in the surrounding area.

Thank you,

Violet Hesketh
