- 25 tonne Excavator with Hammer

Hire Equipment

- Mobile Crushing and Screening
- All track mounted machine

The Chair

Planning Assessment Commission

20th June 2014

Re - Shenhua Watermark Coal PTY LTD

Willow Tree Gravels would like to submit this letter to Planning and Assessment Commission giving its support for the project to be approved. We base this on reading the EIS put together by Shenhua and feel they have addressed the environmental concerns put forward by the community to a very high level.

Shenhua have also demonstrated their willingness to be part of the community, this is clearly evident in the support funding they have put forward for local community base projects, i.e. schools, sporting clubs and other volunteer type organisation within the local area, which can only have a positive flow on effect for all in the community.,

Willow Tree Gravel would also benefit directly from further developments within the region as would our 10 employee's and sub-contractors.

I hope the Planning and Assessment Commission will look favourably on this project and others in the pipeline as we feel there is a big economic benefit directly and indirectly throughout our community.

Regards

Philip Marheine

Managing Director

Willow Tree Gravels Pty Ltd
