Subject: Re: Cultural Events Site, Tweed Valley Way and Jones Road Yelgun, MOD 2 Concept Plan and MOD 4 Project Approval - D474/17

Hello,

I am unable to attend the meeting as I am away working at that time - but do wish to reaffirm my opinion that this event site is now an essential - nae vital - part of local employment for a vast range of local people and provides a very well structured and world class facility for events enjoyed by young and old alike and should be embraced by the local people and local and state government.

Additionally this gives many young people an opportunity to work and gain valuable experience in a world class event and concert production environment.

I do understand that a handful of locals are able to whip up a small storm of objections - but lets face it - It's not a Nuclear power plant is it.

I must add that this event site is very much welcomed by the overwhelming majority of local people - most of who do not have the time - or can be bothered - to get involved in this sort of email writing or meeting processes...

I'm sure that the meeting will be dripping with Banner Waving NIMBYS - and know that your department will see around the smoke screen and do the right thing.

Thanks and regards

Ben Sullivan
