Subject: Objection to Modification to Old Clare Hotel Block 3A Central Park Project D487/17
Date: Wednesday, 15 November 2017 10:07:49 PM

Hi,

I am the resident of Central Park, living on level [REDACTED] facing directly opposite to the Roof top pool of Old Clare Hotel. I put my hands up to the objection of the modification.

To my knowledge, the rooftop bar has been shut down for some times after the initial objection ,and has been fined for unapproved activities. Why do we residents have to put up with the noise pollution again? Me and my family just want to live in a quiet place. I had experienced with the constant loud music and shouting from people from the Old Clare Hotel. It was very disturbing and affected our living.

The re-opening of the Roof top bar of Old Clare hotel means an unwelcome noise disturbance to at least 340 resident of Central Park. This is about 5 to 6 units on each level facing the hotel and across 15 over levels. There are elderly, student and young families living in Central Park. There are many other ways for the Old Clare Hotel to make money, but definitely not at our resident's expense.

Please object the re-opening of Roof Top bar of Old Clare hotel.

Please let me know any latest update.

Thank you

Regards
Gwennia Kwok.
Resident of Central Park East
