To whom it may concern

I oppose the Moorebank intermodal. The area that it is proposed to be built is surrounded by residential areas with young families living here. The area is already congested with traffic. It would be nice to invest in making our area beautiful. We have our Georges River and surrounding bush area which should be developed into areas that we can all enjoy, not have an inter model which will wreck and pollute these beautiful areas. Having an intermodal will have an enormous negative impact on our lives in this area. They need to find another place which will not affect so many people.

PLEASE DO NOT go ahead with the Moorebank intermodal.

Thank you

Jenny Rego
