## **Topic 1. Sustainability of current and future forestry operations in NSW**

We need to stop producing so many people.  
Problem solved  
And make timber precious.

---

## **Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values**

Stop producing so many people.  
Than the forest can stay.

---

## **Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail**

Stop producing so many people.  
If a house is demolished, the materials of the house needs to be dismantled and reused

---

## **Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs**

Less people less need.  
Pay people to plant trees on private property

---

## **Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models**

Let the aboriginal people have control

---

## **Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests**

The planet needs trees.  
No wonder it's burning
