Topic 1. Sustainability of current and future forestry operations in NSW

Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values

Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail

I support ending native forest logging to protect wildlife and their habitats

Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs

I support ending native forest logging to protect wildlife and their habitats

Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models

Don't log State Forests, protect them

Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests

I support ending native forest logging to protect wildlife and their habitats - protecting these habitats is important, not logging not destroying these eco systems is important. Stopping developers, miners, csg and urbanisation of these environments. Not allowing gravel mines and any other mining and deforestation.
