Topic 1. Sustainability of current and future forestry operations in NSW

Premier Minns and Forestry Assessment Group,

We are destroying our environment and its ecosystems by continuing to log old growth forests. Please stop this destruction. We owe it to the planet and nature to do better. Why are people young and old disheartened by the outlook for humanity and the planet? Because we see that we are destroying nature.

Limit logging to plantations.

We need people with strength in leadership to make the tough decisions and to find another way to meet financial and building commitments.
