Organisation: N/A	Key issues: <i>Social impacts, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: <i>New South Wales 2577</i>	
Attachment: N/A	

Submission date: 11/25/2024 2:29:59 PM

*I live in Moss Vale and am very worried about the impact building this facility in the proposed location will have on my local area, and on the water sources that support millions of people locally and in Sydney. I am concerned that there has been woefully inadequate consideration and prevention of environmental impacts, leaving the area open to irreversible damage through air and water pollution. I am concerned about the impact the facility will have on tourism in our area - who'd want to visit wineries damaged by air and water contaminants, or travel here to have to stay inside to avoid pollution in the air? What happens then to those people employed in the myriad of businesses that support tourism in the area? I'm concerned that fires in the facility will damage homes nearby and strain local emergency resources. I'm worried that the value of my home will drop significantly and I won't be able to rely on it as a source of security as I age. I'm frightened by the possibility that a company with no track record of success in this industry, and with no apparent consideration for the environmental and social impacts of the proposed site, could be allowed to operate a plastics recycling facility so close to day care centres, homes and agricultural and riparian areas. It's shameful and I DO NOT support the proposed development.*
