I am objecting to this proposal for the following reasons:

- * 200m away is residential land that is zoned as environmental (E4). How can something so pollution producing be allowed to be built so close.*
 - * local residents advised to limit time spent outside in windy weather to minimise exposure to pollution.*
 - * water contamination to Southern Highlands and Sydney water.*
 - * Risk of fires in close proximity to residential homes.*
 - * Our roads are struggling to cope with the increase of local traffic, it will not cope with an extra 100 trucks per day.*
 - * Not the right site.*
-
