Good Evening,

This plastics recycling facility to be built at Mossvale is:

1. Too close to homes & is dangerous with nano-particles spreading.
- 2 Flies in the face of the natural beauty peace & quiet that residents live here for.
- 3.Ignores other & more efficient technologies.
4. Is being forced on locals - What is the Australian govt agenda?
5. Why is a foreign country providing this service in a tiny town with much natural beauty, who allowed the submission to build & locate it here?
6. What rewards & incentives are there between the Australian government reps & the Chinese Government? What money is changing hands for support? Advocacy? Approvals?

Anyone who supports this development will not be re-employed!

Government at all levels SERVES THE PEOPLE & is paid for by them so listen or be gone!
