

LOUISE SCHOFIELD

OBJECT

Submission ID: 209466

Organisation: N/A	Key issues: <i>Social impacts, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: 2577 New South Wales	
Attachment: N/A	

Submission date: 10/27/2024 7:05:56 AM

The site is not the right site. It should not be on the proposed site.

There is so many more appropriate sites - close to road transport and rail transport that does not go through or impact a residential area. Take Marulan for example - main highway between SYD CBR MEL and is also on the rail line - that will not cause traffic jams of the main arterial road of Moss Vale that is already under pressure and impact surrounding already established residential areas.

Microplastics are already a scourge on our environment and in our sea and this is only going to make it worse on the current site.
