Organisation: N/A	Key issues: <i>Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: <i>New South Wales 2750</i>	
Attachment: N/A	

Submission date: 11/14/2024 8:51:59 AM

*I am seriously concerned for the health and welfare of my family including grandchildren who live in [REDACTED]. The target location for this industrial development and all that is entailed is a potential disaster. The building and the ongoing operation of this behemoth is clearly going to impact the surrounds. The water table in particular and the air quality and safe air quality and general environment cannot be guaranteed as completely safe. The current level of healthy environment must be maintained and protected. The environmental benefits will be lost if the community is placed at future risk due to industrial development in a largely semi-rural environment. Please let common sense prevail as you consider this shape shifter development. The whole integrity of the Southern Highlands is at stake.*

*Kind Regards,*

*Carole A. Williams (Grandmother)*
