Submission ID: 213976

Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic</i>
Location: <i>New South Wales 2571</i>	
Attachment: N/A	

Submission date: 11/14/2024 8:05:21 PM

The transportation of said plastics to and from the plant to be recycled would have to be by semi-trailers, single and double. Some of these trucks will come from Wollongong, using the Picton Road which now is over used, road deteriorating, accidents happening, most of the road is single lane as well. The noise component now is loud at night with brakes etc (local residents Wilton, Wilton Green etc). Why does this company have the right to destroy local residents lively hood, the noise, the smells, the traffic - a catastrophe waiting to happen. Does anyone that make these decisions have any sense of sensibility, the average person can see what a nightmare this would do to the community, the air content not to mention the wildlife as well. Leave Moss Vale alone. Why build something like this in such a beautiful part of the southern highlands, in the middle of green hills and farm lands?
