I strongly object to the proposed Plasrefine development. I object due to the adverse public health impacts and the negative environmental impacts, the severity of both of these which is not known.

The traffic interruptions would be enormous. Moss Vales road infrastructure is barely keeping up with its current population. Adding more trucks going in and out would severely impact traffic further.

Moss Vale is a growing area for families and young persons. We deserve to know our children are breathing clean air and drinking clean water not being worried about the impacts the plasrefine site is having on their health.

My child has respiratory issues and the air contaminants alone would affect him severely. He deserves to go to school not having his health impacted.

Not the right site. No Plasrefine in Moss Vale.
