

## MARTINS CREEK QUARRY PROJECT APPEAL

### Buttai Gravel Pty Ltd v Independent Planning Commission & Ors (Land and Environment Court proceedings 2023/252084)

Wednesday, 12 March 2025

On 8 August 2023, Buttai Gravel Pty Ltd filed a Class 1 Application in the Land and Environment Court of NSW, appealing to the Court against the Commission's 13 February 2023 decision to refuse State significant development application SSD-6612 for the Martins Creek Quarry Project. Maitland City Council and Dungog Shire Council are also parties to the Court proceedings opposing the grant of consent to the Project.

The Application sought consent to extract, process and transport by road and rail up to 1.1 million tonnes per annum of quarry materials over a 25-year period from Martins Creek Quarry.

On 11 March 2025, the parties to the proceedings and the Court agreed to certain plans prepared on behalf of Buttai Gravel Pty Ltd to be exhibited on the Commission's website [here](#).

**The plans are discussed in the evidence filed in these proceedings. Their relevance in the proceedings is a matter that will be determined by the Court at the hearing of the proceedings.**

If you wish to make a written comment regarding these plans, please email [submissions@ipcn.nsw.gov.au](mailto:submissions@ipcn.nsw.gov.au) before 5pm on Wednesday 26 March 2025 with the subject line "Martins Creek Quarry – comment on plans".

All written comments about these plans received by that date will be provided to the parties to the litigation and made available to the Court.
