

State Significant Development – SSD 6612 Martins Creek Quarry.

NAME : Damon Power, resident of Paterson.

I object to the expansion of the Martins Creek Quarry due to these reasons.:

- Lose of business to local business owners. Lived experience tells us that running a business on a haulage route will cause businesses to suffer, concerns about mental health issues..

- Lack of maintenance on the roads – Dungog council struggle to keep up with the deteriorating roads, without the added pressure of 280 quarry trucks per day.

- Risk of injury and incident- roads are not designed for a haulage route .

- 

- Noise, dust, vibration and wildlife.

- Historical town with out dated roads.

- Cumulative impacts, where Tocal and paterson Rd merge, Brandy hill and martins creek quarry trucks will merge.

I object to the expansion of the Martins Creek Quarry,

route. I really feel that this issue has not adequately addressed , which I believe is completely unacceptable.
