ATTN Mr Matthew Todd-Jones

Please accept this email in support of the proposed Bango Wind Farm.

My property is located at [REDACTED] Harry's Creek Road, Boorowa and I will be a neighbour to the development.

I support the proposal not only for environmental reasons but also the financial benefits that I understand will flow to the host properties, neighbours and the Boorowa community.

I see the project providing some financial certainty to an industry (agriculture) that is impacted by numerous variables in weather and markets which are in the main outside a farmers control. The compensation flowing through to farmers will allow for more confident business plans to be compiled by the farmers involved which in turn will flow through to a wider community through purchases & investment.

I further understand that the managers of Bango Wind Farm have voluntarily reduced the number of turbines and that this PAC is reviewing further possible reductions, please consider the financial impact this further reduction will have on those involved.

I fully appreciate that not everyone is in favour of the development and that you will have received some very subjective objectives with regard both visual & noise impacts, I get this, and sympathise with those who feel adversely impacted.

Originally, I also shared these concerns, however, I now believe the benefit to the community and myself outweighs them.

Thank you for your attention to this email.

Best regards
Steve Bunnell
