Dear Sir / Madam,

**The Next Generation (NSW) Pty Ltd v Independent Planning Commission
Land and Environment Court Proceedings no. 2019/13009 (Class 1 Proceedings)
Eastern Creek Energy from Waste Facility SSD 6236**

Update on the Conciliation Conference

The Land and Environment Court (**Court**) has now set a date for the section 34 conciliation conference (**Conciliation Conference**) in these Class 1 Proceedings.

The Conciliation Conference is to be held on 28, 29 and 30 April 2020.

You will have an opportunity to make submissions to the Court at the Conciliation Conference as follows:

When: Wednesday, 29 April 2020 from 10:00am (the Conciliation Conference will conclude at 4:00pm unless all submissions are heard prior).

Where: Alpha Hotel Eastern Creek, corner of Brabham Drive and Peter Brock Drive, Eastern Creek NSW 2766.

It is the Court's usual practice that only 6 objectors make oral submissions at the Conciliation Conference. However, in this case, the Court has indicated that it will accommodate a greater number of submissions being made. The whole of 29 April 2020 has been set aside for objectors' submissions. In accordance with the Court's Conciliation Conference Policy, priority will be given to individuals and groups who represent larger numbers of people, and those who live in closest proximity to the development.

Please note that all written submissions already made in respect of the development application will be provided to the Court.

The amended plans for the development

The Court has ordered that the Applicant file its amended plans by 13 January 2020.

The amended plans will be publicly notified. The Department of Planning, Industry and Environment will separately notify you when the amended plans go on exhibition, and will provide an opportunity for further public comment.

At the Conciliation Conference submissions to the Court should be based on the amended plans.

Yours faithfully

John Zorzetto
