Subject: Eastern Creek Energy from Waste - Eastern Creek Energy from Waste Facility SSD 6236
Date: Monday, 7 May 2018 8:20:25 PM

To whom it my concern;

- I am unable to attend the Public Meeting being held 11.00am Monday 14 May 2018

Venue

Rooty Hill RSL

55 Sherbrooke Street Rooty Hill NSW 2766

I do however wish to submit written comments;

I am a local resident who will be particularly affected by the proposed development and appose the proposal. I cannot understand why the proposal is still alive and how this outdated and dangerous proposal is even being considered.

I do not want my family or anyone's family put a risk, would you?

There is so much information that shows considerable data about the high risks for waste incineration and considering The Health Dept has said NO, The EPA has said NO, WE HAVE SAID NO, and The Planning Dept has said NO.

Why is the proposing still possible?

This needs to be stopped now.

Protect the people, protect our Kids!
