Hello,

I wish to voice my objection to the above da application in council at the moment.

The DA Application is currently with Penrith City Council, for the Cemetery and Crematorium at Wallacia Golf Club. DA reference number: DA17/1092.

This development will negatively affect me as a tax payer and our community. Wallacia is a small community that prides itself on its beautiful surroundings and being a close knit community. The golf course is a large chunk of our town centre.

Wallacia is made up of lots of houses on both residential blocks large and small and lots of acreage. Our town centre however is tiny, we don't even have an IGA. Throwing in a massive cemetery will destroy most of our town. We will also be subject to road restrictions in the form of funeral processions and visitors. My children with other local children walk to and from school every day. This will add to the already increasing traffic on Park Rd. It will become no longer safe for this.

I have no objection to finding somewhere on the outskirts of Wallacia in some of the farming areas to put a cemetery. Please don't kill our town.
