

RE: DA17/1092 - 13 - 15 Park Road WALLACIA NSW 2745

To whom it may concern,

I wish to put in my objection to the proposed Cemetery at Wallacia Golf Club.

We have lived in Wallacia for 15 years

We feel that by changing this area into a cemetery the rural feeling of our community will be destroyed.

we are extremely concern with how the acquisition of the land was sold firstly from Panthers to the middle man and then to the Catholic cemeteries. We feel that there has never been any community consultation in regards to any of these sales.

you have said that the road (Park Rd) will cope with the extra traffic though i fail to see how this can possibly be true

The infrastructure is already under strain. With the inclusion of a crematorium our environment will be under increased pressure as the pollution from the air port (up the road) increased traffic and crematorium will have a huge impact on our quality of air. Not to mention that our local school children will be exposed to this on a daily basis.

Although you have said that the inclusion of 88,000 burials will have little impact i totally object this statement as even if only one car comes to visit a loved one they are more than likely to come at least 3 times a year, anniversary, christmas and easter. this means that the traffic could be at least 3 times as predicted at least.

Most importantly we chose this rural setting to raise our two children in and feel that this will have a direct impact on their environment and future.

We hope that you will take our objection into consideration and stop this application.

Kind Regards
