RE: DA17/1092 - 13 - 15 Park Road WALLACIA NSW 2745

I would like to lodge a rejection/submission to DA17/1092.
I object to this proposal as I feel it will decrease property values in the general area and particularly to the Units. I think that an independent valuation report should be presented to Council

Also Park Road, Northern Road, Mulgoa Road do not need anymore traffic they are to capacity now. The amount of accidents that occur on the two main road is horrific.

I am sure some of this has been taken into consideration, but as we all know real living practice situations are very different to what is on paper. The fanciest Impact Studies that these Companies do do not take real people and lives into account.

Thank you for reading this.
