RE: DA17/1092

I received letter about this application which invited me to make a submission about the proposal.

The simple fact is that this will ruin what is the current beauty of our town. How this could be allowed to proceed in the middle of our beautiful town is beyond me and I will assume that anyone of the decision makers do not live here, so it doesn't matter to them. [redacted] one at Fernhill and now this one. [redacted] At least the others aren't in the centre of town so I have never objected cause I know it will fall on 'deaf ears' as I fear this one will also, but I am so disillusioned that I felt I needed to have my say anyway.

I also have suspicions as to how this land was acquired as I have seen and heard reports that it was acquired for well below market value and resold for a much higher amount. Surrounding this are many rumours which include clubs and people in powerful positions which really make me and others question and feel 'robbed'.
