I refer to the proposed Wallacia Cemetery & Crematoria.

My objection to this happening, i have lived in Wallacia for over 30 years and its been the best time of my life.

My husband and i a few years ago where thinking of selling up and moving but we couldn't think of or find a better place to live, hence we are still here.

With the new airport going in this has still not changed our mind to sell up and move. But we will definitely consider moving out of the area if a Cemetery proceeds, Wallacia is a very quiet pretty village which is very family orientated, to bring in Cemetery would have devastating effect on the community.

The area would be scared and would no longer be a very desirable Village to live in, it would be effected by more traffic and not be able to handle this sort of extra traffic.

Penrith Council have always been a council that takes pride in there Parish Council, they listen to what the residence have to say, they listened to the people of Mulgoa when the Cemetery was rejected at Fernhill , so my family and i and so many other in Wallacia are hoping that you listen to us , and that this Cemetery does not go ahead.

regards
