---

Hi,

I write to object against the current application for the Wallacia cemetery. In reading through the paperwork submitted there are numerous documents in which the recommendation is against proceeding with the proposal due to significant environmental impacts. There are also several other cemeteries already approved within a short distance to this one that are not in a residential area. The current golf course offers green space for exercise and social interaction for many people within the villiage. There is huge amounts of land in surrounding areas that are not currently residential areas that would be better suited to a cemetery. In this case should that area be later developed at least the new residents will be choosing to live near the cemetery, it won't be dropped in the middle of their current villiage. I urge you to seek community feedback to here from other residents as I don't believe this has been done satisfactorily at this stage and I also urge you to reject the application.

Thank you for taking the time to read my objection to the Wallacia Cemetery proposal.

Regards  
Adam Farrugia  
Wallacia Resident
