Subject: Cemetery at Wallacia
Date: Friday, 8 February 2019 4:59:42 AM

I wish to register my opposition to the proposed cemetery on the present golf course at Wallacia.

Having so many burial plots where decaying bodies will affect the ground water and leach into the surrounding creeks and the Nepean River is madness.

Having an establishment of this size in the centre of our village is also madness, causing a huge increase in traffic in the area on roads that are already having difficulty in coping with the increase in traffic from increased housing in places such as Silverdale.

Please take notice of those who live here, whose lives are already being impacted heavily and negatively by the development surrounding the Western Sydney Airport.
