Subject: Objection to Wallacia Golf Course Development
Date: Saturday, 6 April 2019 5:56:41 AM

To The Ipc,

My name is Frank Xerri and I have lived in at [REDACTED] Wallacia since 1997

I am writing to lodge my objection to the proposed development of Wallacia golf course into a cemetery

The Wallacia golf course is located in the centre of our township, locating a cemetery in the centre of a township is poor planning to say the least

Wallacia golf course is a green space used by many in the local area as well as attracting many golfers from surrounding areas as well, there are many other reasons the site is unsuitable to this development which have been raised by many in the community including the fact that the land is flood prone leading to contamination of the nepean/hawkesbury catchment. Water from these rivers is used in agricultural enterprises both locally and down stream and cannot be ignored. The increase to traffic in the local area and the loss of a recreational green space used by many in the local community

Best Regards
Frank Xerri
