Dear Sir/Madam,

RE: DA17/1092  
Lot 2 DP 1108408  
Lot 512 DP 1079728

As a member of Panthers Wallacia Golf Club I do not want to see a cemetery in Wallacia.

The picturesque view from the club house would be marred by the smoke billowing from the crematorium.

There would be a health risk for the golfers and the residents of Wallacia from the smoke.

The proposed cemetery is planned to be in a flood zone. Jerry's Creek floods in heavy rains. The trees in the low lying areas have grass and debris all around them marking the water levels of the flood. I would not want to see bodies being washed up and strewn all over the Golf Course as well.

The towns of Wallacia, Mulgoa, Warragamba and Silverdale are destined to grow with the airport being built. Luddenham is going to be another city. With the increase of population in the proposed housing estates there is going to be a need for more schools, shops, restaurants, recreational areas. With a cemetery and crematorium planned for the middle of Wallacia, where are these amenities going to be built? Not next to a cemetery. The needs of the living outweigh the needs of the dead. A cemetery needs to be built away from the hustle and bustle of everyday life. Therefore not in the heart of Wallacia.

I strongly oppose the plans for a cemetery in Wallacia.

Yours faithfully,

Marguerite Hillsley
