**Re: Catholic Trust application for a Cemetery/Crematorium at Wallacia Golf Club**

Dear Ministers (and planners)

The Wallacia township is **against** this application in the centre of town

The cemetery/crematorium **will flood**, the cemetery is there **forever** the catastrophic flood **will** happen, and the people should not have to pay for recovery/reconstitution

See attached evacuation routes, the Catholic Trust's Cemetery Consultants used the 1:100 flood levels, and were not aware of the 1:170 year Catastrophic flood when asked

There is **more suitable** 'higher ground' available and the "Crown Lands/Rookwood" department/s know this

Please answer the following questions in writing

- Q1 Does the Crown Lands Dept own this land? Will the Crown eventually own this land?
- Q2 Who will be responsible financially when it floods I E recovery and reconstitution of 100,000 caskets/corpses/ashes, NSW taxpayers?
- Q4 Will the Wallacia township have a choice in relation to the consent of this adjacent Cemetery/Crematorium's (human incinerator x 2) pollution? (They don't want it in the heart of Wallacia)
- Q5 Has the State Govt/Planners/and Consultants taken into account the 1:170 year "Catastrophic" flood levels last recorded in 1887? (Townsville experiencing 1:500 flood year now)
- Q6 Will the same amount of recreational space be purchased to replace the loss of "this land donated to the people of Wallacia"?
- Q7 Will Wallacia's infrastructure be improved (e.g., Sewerage/Water/Electricity/NBN/Schools/Shopping Centre/Bank/Health Care), as a result of this cemetery? The Western Airport?
- Q8 What is the long term health effects of this to the local Men, Women, Children over their entire lives exposed to this incineration/pollution?  
 One Crematorium handles 1,200 incinerated people and stores 800 human remains per annum Two Crematoriums 2,400 incinerated people & 1600 human remains per annum  
 I E over the next 100 years min of 240,000 incinerated people in the heart of Wallacia
- Q9 Why does a private cemetery pay land tax and the competing Catholic trust pay none? Why is there land tax on Cemeteries?

Kind Regards

Glen Ilic [REDACTED]  
 Wallacia

Wallacia	Wallacia / Bents Basin	Overland Escape	33.9m AHD locally (21)		Bents Basin Road is cut at Baines Ck early during flooding isolating the area. Properties may be flooded during larger flood events. Overland escape may be possible up the hills to the west.
	Wallacia / Sth Wallacia (WA1) (15) and (23) road point ID	High Flood Island	61.5m locally (39.8m main evac route cut)	>PMF	The Park Road Evacuation Route is cut at 39.8m AHD. The alternative route is through a private property on a dirt track. Many properties would be flood affected in a PMF.
