To whom this may concern,

I am writing on behalf of Wallacia public school's SRC and P & C committees,

We are a small community with at the moment 67 students in our school the P&C have approached the SRC students who have come back to us for their future and of their families we don't have any sort of sporting facilities in our area they have to travel, If their parents do not drive the public transport is not great out this way or If their family's busy they are not able to access any where for them to be proud of in their area no where big enough to go kick a ball or play a game of cricket no where to get together as a school friend and socialise.

They would like to see one of three sporting facilities be taken into consideration for their future and of the up coming children of the area and its surrounds, somewhere for them to be grateful and proud of.

Some where they can call their home team of Wallacia

- 1, cricket
2. Soccer
3. Ten pin bowling.

As P&C President and a mother of 6 children it would be great if there would be some where for the children to go and play rather than having to drive 20-30 minutes to go to a location where it is possible and then home again.

A facility that could be used all year round for a range of ages, somewhere the whole family can get together and enjoy their time spent with each other.

Kind regards
Jonmarie Gray
