Re: Mount Pleasant Coal Mine Extension of Mine Life (DA 92/97 MOD 3) – D512/18

To whom it may concern,

I am writing to express my support for the Mount Pleasant Extension of Mine Life MOD 3 proposal.

I own and operate a small café in the Muswellbrook town centre, which I opened in September 2016. In the last six to twelve months, I have noticed increased activity in the CBD with workers from Mount Pleasant and their families frequenting my cafe on a daily basis. This is a trend other small business owners in the shopping centre in which my café is located have also commented on.

In the time since MACH Energy established its Muswellbrook operations, I have had the opportunity to develop a great working relationship with the team, providing catering services for all of their business meetings. This has had a positive flow-on effect to my own business and the staff I employ.

In conclusion, I very much support Modification 3 and the potential it will bring to boost small business in the Muswellbrook community.

Yours sincerely,
