

**Name : Lawrence Nash, Resident Culburra Beach  
Purchased Home in 1995, relocated permanently in  
2004.**

**Reason: to move to a regional area away from the  
hustle and bustle of City living plus My wife and I  
have son now aged 44 who has a disability and he is  
very well accepted in a smaller community then what  
he would be in a larger city. My Daughter also  
purchased a home in Culburra Beach in 2015 with  
the purpose of retiring here. She has an 18 week old  
son and for him to seek employment in the future  
within our township would be impossible unless a  
subdivision goes ahead. At present our town is  
dying, shops and business's are closing down, there  
is currently minimal employment without long  
distance travel. Sadly, due to the lack of  
development in Culburra, one of townships longest  
standing businesses (the hardware store) will soon  
be closing down. I am positive that many more will  
follow. Therefore we need this subdivision to  
proceed.**
