Subject: Objetc to Ashton South East Open Cut modification 1
Date: Monday, 13 August 2018 7:06:13 AM

Dear Commissioners,

I am writing to lodge my objection to modification 1 of Ashton South East Open Cut coal mine expansion

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

Please protect the Camberwell community

Yours sincerely,
Moira Williams

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

Please don't leave the people of Camberwell stranded.

Yours sincerely,

Barbara Butt

Date: Friday, 10 August 2018 8:02:29 PM

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

Please don't leave the people of Camberwell stranded.

Yours sincerely,

Lorraine Alcorn

Date: Friday, 10 August 2018 5:49:43 PM

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

Please don't leave the people of Camberwell stranded.

Yours sincerely,

Rob Vail

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

Even though I do not live near Camberwell, I am very aware of the pollution caused by open cut mining, as there are several towns in South-East Queensland where people experience poor air quality because of mining activity. Please don't leave the people of Camberwell without access to clean air.

Yours sincerely,

Laurel Wilson

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

I am one who travels through Camberwell a few times every couple of months and I sometimes stay at Rixs Creek road side rest area of Singleton, where I have family.

So on their and my own behalf I support Wendy Bowman and the people of Camberwell wholeheartedly. I urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July, 2018. As a retired Environmental Health Officer I say nobody should be forced to live with air that bad.

Please don't leave the people of Camberwell stranded.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

This would NEVER be allowed to happen in the city. We have no right to deliberately affect the health of people.

And we must not destroy agricultural and grazing land and the ground water- our children will never, and should never, forgive us.

Nothing should be done to negatively impact our regional people - ever.

The drought has knocked them to the ground - it is absolutely unacceptable for us to kick them while they are down!

Do not kick the people of Camberwell!

Yancoal is only in it for the money - they don't care at all about their impact on people.

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

Please don't leave the people of Camberwell stranded.

Yours sincerely,

Lily Schmelzle

Date: Friday, 10 August 2018 3:09:07 PM

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

Please don't leave the people of Camberwell stranded.

Yours sincerely,

Annette Shields

Dear Commissioners,

There is no economic need to reverse the very sound decision of the Land and Environment Court's decision to block Ashton South East Open Cut modification 1. There is huge environmental effect to take into account to NOT ALLOW it. It is your duty to make a decision in the best interest of the people of New South Wales. The most important citizen of NSW in this case is Wendy Bowman.

I object to modification 1 of Ashton South East Open Cut.

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July.

As you well know, companies knowingly putting communities health at risk is only now beginning to bite corrupt and complicit Governments at all levels, be they Local, State and/or National.

This litigious trend is global.

That means that our Legislation and all Objectors will have access to real and effective Legal Precedants where corrupt corporations such as YANCOAL etc and their government 'ENABLERS', Will, AS we have seen with the Royal Commission into Banks, be exposed and forced to heavily compensate ALL local community members.

All levels of Government enablers who 'three monkey principle' communities who are exposed to :

Toxic air pollution

Toxic dust

toxic noise levels

theft of landholder property values

Nobody should be forced to live under these horrific conditions

YANCOAL owned by the PRC which is reknown for its imperialistic 'expansion at any cost' - modus operandi., The PRC should not be allowed to treat intergenerational Australian landholders like their Chinese slave-workers - deprived of the rule of law - and forced to survive like animals.

All this is currently sanctioned by gutless, greedy and imbecilic Oz Governments at all levels, effectively abandoning the people of Camberwell.

Continue to abandon Camberwell etc communities at your own risk.

Yours sincerely,
judith sheehan

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

Please don't leave the people of Camberwell stranded.

Yours sincerely,

Ossie Gordon

Please don't leave the people of Camberwell stranded. The unconscionable bullying of people who do not wish to leave their homes and sellout to mining plunderers, has to stop NOW !!! What is going on in this country which is supposed to uphold "the fair go", is unfair and shocking to all fair-minded Australians. Profits and royalties being placed ahead of people's wellbeing, is a damn disgrace and politicians who allow this to occur, have to be called out and made to take responsibility for their actions ?! Are we still a democracy or a gutless corporatocracy ?

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

There are people living well outside the mine expansion footprint, especially in the nearby village of Camberwell, who are already living with horrendous air pollution from the existing mine and other mines in the area.

Yancoal are supposed to buy out any of these people who want to escape the excessive noise and dust pollution from their existing mine, other mines and this expansion. They and their childrens health is in jeopardy.

However, the mining company is trying to sneak through changes to its conditions to weasel out of buying these good people out.

That means these Camberwell folks will be condemned to breathe unsafe air pollution, with no way out. No private buyers are going to buy land here.

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

Please don't leave the people of Camberwell stranded.

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

Please don't leave the people of Camberwell stranded.

Yours sincerely,

Clary van Noppen

Dear Commissioners,

Further to the formatted letter below, I would like to add my own words & concern.

I find it seriously worrying, as well as embarrassing, the way Australia is falling behind so many other countries, including former '3rd World' countries....

Once again, money is coming before environment. The small farmer gets the short straw. Yet it is farmers who provide us with food that keeps us alive.

Mines don't.

Yes mines are bigger, shout louder, & are in a better financial position to fight.

That doesn't make it right.

Our hard working food suppliers need our support, not be abused & cheated on as this mining bullies.

Please support those who deserve fairness.

I object to modification 1 of Ashton South East Open Cut.

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

Please don't leave the people of Camberwell stranded.

Yours sincerely,

Pam Massey

Date: Saturday, 11 August 2018 11:43:28 AM

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

I support Wendy Bowman and the people of Camberwell and urge the Commission not to tamper with the conditions imposed on this mine by the Land and Environment Court.

There were air quality alerts in Camberwell on average once every two days in July. Nobody should be forced to live with air that bad.

Please don't leave the people of Camberwell stranded.

Yours sincerely,

Frances Watson

Subject: Submission - objection to Ashton South East Open Cut modification 1
Date: Saturday, 11 August 2018 9:48:24 AM

Dear Commissioners,

I object to modification 1 of Ashton South East Open Cut.

As we all do, the people of Camberwell, Wendy Bowman among them, have a right to breathe clean air every single day. The people in this community should not have to live with questionable air quality for which there were alerts an average of once every two days back in July. Clean air is unquestionably central to survival and good health. If air is polluted and contaminated, then we become sick.

I urge the Commission not to change the conditions imposed on this mine by the Land and Environment Court. Changing those conditions, to incorporate the modification requested, would seriously let the people of Camberwell down. It would put the mine's interests ahead of the health of people and their community.

Yours sincerely,
Ellen Pustolla
