To Commission members,

I fundamentally object to the **Long Bow Point Golf Course SSD 8406** and recommend that the Independent Planning Commission refuses it.

We are permanent residents and home owners in Culburra Beach and have been for the last 8 years.

Our family value the environment – and the obvious impact on our extraordinary lake is a great fear to us in the continued sustainability of what attracts visitors to our town, and keeps them coming back.

There are multiple perfectly sufficient golf courses and clubs within a short drive and any claim that this area needs more is false.

It seems such an absurd proposal, I can't understand why it would even be suggested that the magical and sensitive environment of our magical lake would be interfered with – and for no gain. I don't play golf, my husband occasionally does and Callala and Worrigea are coping perfectly sufficiently in meeting the golfing needs to the area as he never has to wait a moment to tee off.

Please don't approve this application – it would add no value to our area and only cause a lasting and detrimental impact on the beauty which attracts people to Culburra.

Yours sincerely,

The Thompson Family – [REDACTED]
