

27 June 2019

Mr William Vatovec  
william.vatovec@kepcosaustralia.com

Dear Mr Vatovec,

**Re: Bylong Coal Project (SSD 6367) (Project)**

We refer to the above Project currently before the Commission and our telephone conversation today.

As you are aware, during its consideration of this matter, the Independent Planning Commission (**Commission**) has been provided with a large amount of material from stakeholders and the public.

On 1 May 2019, a statement was put up on the Commission's website stating that: *"the Commission will not accept any further comments from stakeholders, including comments from members of the public."* (**Statement**)

Notwithstanding this it has come to our attention that a small number of documents were not uploaded to our website in line with our transparency policy. These documents were submitted to the Panel for consideration after the 7 day period following the public meeting but prior to the Statement being published.

We apologise for any inconvenience.

The documents are listed in the attached index and will be uploaded on the Commission's website today (27 June 2019). Should KEPCO wish to provide comment on any of these documents please do so before COB Friday 5<sup>th</sup> July. Finally, I draw your attention to the publicly available comments in relation to the GML Heritage advice dated 12 June 2019 which have been received up to 27 June 2019.

Kind regards

**Samantha McLean**  
**Executive Director - Secretariat**
