Subject: I object to the Bylong Valley Coal Project going ahead.
Date: Saturday, 10 November 2018 12:37:06 PM

Dear Commissioner,

There has not been any research, or any precedent, to indicate that the Bylong Valley Coal Project will not have irreversible detrimental damage to the entire Bylong River and Bylong valley underground Aquifers.

The long term effect on the environmental ecology and agricultural production that will be caused by this must not be allowed to happen.

On the driest inhabited continent on earth we cannot afford to destroy valuable water resources for short term benefit.

Best regards,
Robert Ward
