---

Dear Sir/Madam,

I am writing to express my full support for the KEPCO Bylong Valley Coal mine. Coal is still the safest form of electricity production in the world and we do not want the risk of nuclear power in Australia.

On top of all this our district will benefit greatly from the economic boost ensuring our communities thrive for many years to come.

The Bylong Valley is a very special and unique part of the world and if managed correctly will continue to be this way with the inclusion of mining in the valley.

In closing I hope that the government sees fit to approve this very important project that will create jobs and strong economic growth for the central west of New South Wales.

Kind Regards,

*Tim O'Brien*
