**Type of enquiry:** Enquiry

**Your enquiry is about:** Major development proposals

**Enquiry details:**

Hi there! We would like to support the concerns raised about the development modification to Pemulwuy Precinct 3. Namely the pedestrian foot traffic survey validity, as the pedestrian capacity of local streets seems unrealistic. Particularly following the recent accident on the Lawson st/Abercrombie junction where a young girl had her pelvis crushed by a vehicle. Also the lack of consideration from the developer for additional vehicles in the area both serving and belonging to the extra tenants. Sincerely, Tenants of 159 Lawson Street.
