Subject: Coppabella Windfarm
Date: Thursday, 15 November 2018 12:00:49 PM

Hi,

My name is Lynne Fetterplace. My husband and I own a home that looks directly at the Coppabella hills (about 3km away). We have the best view of the hills that I know of but neither of us have a problem with the Windfarm. We actually find them to be grand and graceful. As for some advantages that the Windfarm will create for the district are jobs (that are dearly needed), lots of businesses will benefit during construction time therefore bringing more money into the community.

Goldwind has been a great support to our community with sponsorship of many organisations and that is so wonderful as we may very lose some of them without the help. I would like to mention I know of locals who are opposed to the Windfarm but have asked for money for the organisations they support and they have been happy to accept the money from Goldwind

Last but not least this country has a renewable target and I strongly believe we need to reach that

Binalong and district need this project it would be a real shot in the arm for the vast majority. These farms and solar farms need to be in someone's backyard why not ours

Regards Lynne Fetterplace
