

5 March 2019

Prof. Richard Mackay, Ms Catherine Hird and Mr Andrew Hutton  
Independent Planning Commission  
Level 3, 201 Elizabeth Street  
SYDNEY NSW 2000

Dear Commissioners,

**RE: State Significant Development Application (SSD 8169) - North Byron Parklands  
Cultural Events Site - 126 Tweed Valley Way, Yelgun**

With respect to the above State Significant Development Application, I would like to formally request the removal of the following components of this Development Application as follows:

- The proposed augmentation of the wastewater treatment system (i.e. that infrastructure above and beyond the existing Byron Shire Council approved on-site sewage management system) including additional storage tanks, various reed bed systems, chlorine dosing mechanisms and all associated infrastructure for the irrigation of treated effluent across parts of the venue camping grounds).

For future events held at North Byron Parklands, wastewater that is generated above and beyond what can be treated via the existing Byron Shire Council approved wastewater treatment system will be required to be disposed of at an approved liquid waste treatment facility.

This is the normal practice for the majority of outdoor events across Australia.

Please let me know if you require additional information.

Yours Sincerely

A handwritten signature in blue ink, appearing to read "Mat Morris", is written over a vertical line.

**Mat Morris**
