Subject: Submission RE SSD 8169 North Byron Parklands Events Site
Date: Friday, 11 January 2019 4:56:22 PM

I would like to submit my objection to any further expansion on festival sizes or days at the North Byron Parklands. I am a resident in Yelgun, within 2km of the site.

I am sure you will have had submissions on impacts to the environment and wildlife, impacts on residents, strains on local resources, major concerns from emergency services and police on safety of patrons and residents and objections from traditional custodians amongst others. All are extremely valid concerns and should not be put aside for the financial gain of an international conglomerate.

My major concern at this point is that this process should be allowed through the Department of Planning at all when the original trial period granted stipulated that control would revert to Byron Shire Council at the end of the trial. Our local council has a far better understanding of the wants and needs of our community and the numbers that our local infrastructure can cope with.

I do hope that you can look at the needs and wants of a small rural community and not let one group impose this monstrosity upon us for the financial gain of a few. At the very least the numbers should not be allowed to grow past the current allowed, and preferably reduced to a number that at least the police and emergency services feel is safe if nothing else

regards,
Helen Luna
