Modification to Kings Forest Residential Subdivision KOALA PLAN OF MANAGEMENT (MOD 4) – D544-18

Thank you for the opportunity to hear my views on the above matter. My comments on the Departments assessment report are as follows.

I believe that ,

1. Offset planting of 27ha of Koala Food Trees is not clear and is unresolved. It must be secured through binding or legal arrangement before any construction commences.
2. Entrance roads through Environmental Protection Zones must have underpasses before any construction commences. If ONLY fencing is installed without underpasses it will result in Koalas and wildlife being cut off from their natural corridor for many years.
3. The Cudgen Paddock (golf course) should not be fenced off .It was always to be part of the wildlife corridor and fencing would stop the Koalas from access to their food trees. The fencing should be placed around urban areas that abut the golf course to allow koalas and other wildlife unimpeded access to it.
4. This area is a significant corridor for koalas. It is imperative these animals are protected and considered in this planning process. Please do not further endanger our wildlife for the greed of a few.
5. Loss of habitat is the most significant threat to koalas (see NSW Koala Recovery Plan)

As a member of this community I am very passionate about protecting our endangered Tweed Coast Koalas in Kings Forest, please consider carefully the important points I have raised and include them in your final decision.

Signature _____

6. See 2010 Plan agreement - the trees have not been planted!
