Subject: RE: Impact of Cockle Bay development on the circular park and child care centre between Darling Park Towers

Categories: Aaron

Dear sir/madam,

Further to my following e-mail, I would also like to submit that there is a large childcare centre that uses open area between the three Darling Park Towers. The children would be deprived of winter afternoon sun if the proposed tower goes ahead in its current location.

Regards

Satyen Kumar

Subject: Impact of Cockle Bay development on the circular park between Darling Park Towers

Dear Sir/Madam,

I would like to submit that, if not already dealt with, consideration needs to be given to the impact of the new development on the sun light in the circular public park between Darling Park towers. This is a public park and is used by many people from the offices around and outside for their lunch breaks and meetings in winter sun when it is so nice out there.

Regards

Satyen Kumar
