Hi Andrew

Further to our advice yesterday, we have sought advice from UrbanGrowth regarding the reason(s) behind the boundaries of the current Central to Eveleigh Urban Transformation Strategy. They have confirmed that the boundary was based to principally include Government owned and managed land at the time. The strategy indicates that the planning for any private land within the strategy area would be managed by the City of Sydney Council and the Department of Planning and Environment.

If you have any further questions regarding this matter please don't hesitate to contact me.

Kind regards,

Amanda Harvey

Hi Andrew

Please see our response to the IPC's questions pertaining to the Eveleigh to Central LUIP.

The Department is currently considering options for the progression of the Central to Eveleigh Land Use and Infrastructure Implementation Plan (LUIIP). The Department is not able to provide a time frame at this stage. Under normal planning processes, any LUIIP would be publicly exhibited to seek the community's feedback, subject to the Minister's approval.

If you have any further questions regarding the LUIP don't hesitate to come back to us.

Kind regards,

Amanda Harvey

Amanda

I am writing in regard to the Eveleigh Land Use and Infrastructure Implementation Plan (LUIIP).

In my mind I seem to recall asking about this however a search of my emails would appear to reveal that I have not.

The Commission has requested an update on the status of this document as the proponent has indicated that it believes LUIIP is not going to be produced.

Assuming it is produced is there is a procedure for adoption by the Department when complete.

Any advice would be appreciated.

Thanks
