Objection to the Dartbrook Coal Mine Modification 7 (DA 231-7-2000 Mod 7)

My name is GARRY DERKENNE

My address is [REDACTED]

I have lived in the Hunter district for 32 years.

I object to the Dartbrook coal mine modification as referred to above.

-I have been told that there have been a substantial number of detailed presentations by experts to demonstrate the Proponent's application did not address many important issues; and in other cases that the details in the application were wrong, including:

impact on the Special Economic Zones for the Equine and Viticulture industries,
Economic outcomes for Australia and NSW,

Water,

Noise,

Landscape,

Aboriginal and early Colonial heritage,

etc.

Therefore, as I understand the case, the Independent Planning Commission now has enough information before it to understand that the Application should fail, and so I ask that the IPC now refuse the application.
