I am strongly objecting to the reopening of the Dartbrook coal mine as it was closed owing to water and gas problems and if reopened will become an open cut mine causing dust and pollution to the towns of Aberdeen, Seone and Muswellbrook causing a lot of health issues such as Asthma and other health issues.

The Hunter River running through the area will be more polluted with waste from the proposed mine. Upstream from Aberdeen there are no mines and I want it to stay that way.

The Hunter Valley already has many mines in production and expanding why reopen Dartbrook mine?

If the mine reopens many hectares of lush farming land will be ruined and all that will be viewed would be overburden waste and huge holes in the ground as has happened in the lower valley.
