Good morning, I totally object to the developer taking any further land that he has already been granted. This remaining land that is part of the Garrads Reserve and should be left as is to form part of the buffer zone between the existing development and the reserve. The reserve provides much needed amenity for local people with beautiful trees towering on these blocks. We are losing our habitat with developments that are unsustainable and any further removal of vegetation will be devastating for flora and fauna. Not to mention that the houses on these potential blocks will be seen from the highway at Milton. Not on!
