Subject: Removal of trees
Date: Wednesday, 12 June 2019 9:38:42 AM

The removal of trees down Aarons Pass Road that CWP seek should not be approved as it would be an environmental disaster. I do not agree to the destruction of koala habitat for the sake of 37 wind turbines given the well documented and precarious situation our amazing native animals find themselves in today, this is clearly not a "green" project and extremely contradictive to what it attempts to achieve if allowed to proceed.
