Subject: Star Casino Redevelopment MOD 13
Date: Thursday, 22 August 2019 4:54:28 PM

My wife and I are residents at Sydney Wharf (Pymont).

We have been following progress on the application for the Ritz Carlton hotel and are supportive of its development.

The immediate advantages to this development are jobs and the introduction of an iconic brand 6 star brand to Sydney.

The building has been designed with merit in mind and it would face our building. We see it as improving the skyline rather than detracting from it.

Height is of little concern. We are a major metropolis and should not limit height when design, use and logic prevail.

Needless to say we are in full support of the development.

Regards,

Mario Evangelo
